

Russell Pearson AV Requirements

RUSSELL
PEARSON

Russell Pearson

Russell is willing to work with the AV team provide a smooth process to the event, so please contact him direct if you have specific requirements.

Please let us know what is or is not available 48 hours prior to the event.

IN-PERSON EVENTS

- Apple MacBook Pro (13-inch, 2019, Four Thunderbolt 3 ports).
- Presentation Software: Keynote.
- Thunderbolt connection where possible (have USB and HDMI converter) though the preference is the have AV support for connection.
- Projector or HDMI Display to support presentation.
- Flipchart or white board with working coloured markers where available.

VIRTUAL EVENTS

- Private Studio with lighting, multiple cameras and microphone sound.
- Presentation delivered via Virtual Camera capacity via ecamm and loopback software connecting to multiple camera and sound options.
- Zoom is a preference, but can work with any software. Would like prior notice of software to adjust technology as necessary.
